

Fog Security RAPID

Fog Security – model RAPID		jun/04 ver. 02			
Speed with which the protection is made	<p>Two tasks must be solved fast. One is to prevent the thief access to the premises; the other is to seal off the area that needs protection. This model is designed for this, it is inexpensive.</p> <p>Rapid Fog is an inexpensive and simple security machine to be used anywhere. Designed to secure areas of about 50 m² per unit..</p>				
Safety in the system	<p>The system has a very comprehensive monitoring of all its features. Should a fault be detected a customer friendly display will light up and an electronic signal will be sent to the alarm system. What is monitored?</p> <ul style="list-style-type: none"> ▪ Volume of liquid left ▪ Tamper ▪ Ready/not ready ▪ Fuses ▪ Temperature
